

General References

READ CAREFULLY: The purpose of this form is for the offeror to provide the Government with general references in the spaces provided as described in the Instructions, Conditions, and Notices to Offerors (Section L). Include Area Codes with all telephone numbers. Fill in the information by typing or printing legibly.

It is especially important that the offeror disclose instances in which their relationships with the references may be considered less than fully satisfactory. The offeror should tell their side of the story and describe remedial corrective action that has been taken or will be taken to correct the deficiency. Failure to do so may result in a determination that an offeror has been less than candid with the Government, which could result in an unfavorable assessment of the offeror's past performance record. Provide explanations on separate sheets as necessary.
