Collection System Cleaning & CCTV Inspection Project

Scope of Work:

This work involves cleaning and video inspection of over 44 miles of various size sewer lines over a 4-year period. The selected contractor will be required to sign a multi-year agreement with Summit County Government.

A price per foot proposal shall be submitted based on the attached sewer line schedule.

Please include any applicable additional costs that may be required for the completion of this project.

CCTV inspection of the sewer lines, manholes and all other associated collection system assets shall be recorded onto an external hard drive and provided to Snake River WWTP staff once all required inspection reports are complete.

<u>Line Size (Inches):</u>	<u>Length (Feet):</u>
4	265
6	14,159
8	170,995
10	12,837
12	4,727
15	16,489
18	12,457
24	1,841

TOTAL: Length of Lines – 233,773 Ft

TOTAL: Length of Lines – 44.28 Miles
