

QUESTIONS & ANSWERS
NO. 1

February 20, 2026

RE: Uintah Water Conservancy District – J-J Lateral Metering Project
 Project No. 2410-044

FROM: Jones & DeMille Engineering, Inc.
 205 North Vernal Avenue
 Vernal, Utah 84078

TO: Prospective Bidders

QUESTION AND ANSWERS:

Q1: Can you provide an approximate timeline for the work on this project?

A: Yes, The Owner would like the work to start as soon as possible once the contract, insurance, and other bonds are in place. The Contractor can then work until irrigation season starts. Irrigation season should start on April 1, 2026 and end on September 30, 2026. It is expected that no work will occur during this time without written permission from the Owner and associated property owners. The remainder of the work can be resumed when irrigation season ends. If irrigation season ends early because of drought conditions the contractor may, with the Owners written permission, restart work earlier than the dates shown above.

Q2: Will there be any delay in beginning the project on account of the organization(s) funding the project?

A: A delay on account of the funding organization is not anticipated.

Q3: Is there any asphalt road repair associated with this project?

A: No, asphalt road repair is not anticipated for this project. Meter locations shown on the project plans are approximate and may be adjusted, with the Owner's permission, to avoid unnecessary repairs. Also, be aware that the Contractor is responsible for the restoration of the area around the installation area, see the Unit Price Measurement and Payment Specification (01 22 19) for details.

Q4: Is there an estimated cost for the project?

A: The project is estimated to be between \$400,000 and \$500,000.

Q5: Are there any special requirements for the valve and meter can lids.

A: No, there are no special requirements for can lids. The lids should be painted steel with a handle and fit the meter can size, see the Irrigation Service Meter Specification (32 86 11) and Project Plans for details.

Q6: There is no pre-bid meeting for this project, correct?
A: Correct, a pre-bid conference will not be held.
