*Design intent for finish selections highlighted in blue within the furniture package are to be a lighter wood, one which either matches existing trim and casework, or is distinctively lighter like maple. The team recommends any fabrics be in a warmer tone and are able to be easily cleaned. The Design Team recommends, prior to any procurement, a full sample review for all furnishings with material finish samples, existing paint draw-downs and existing wood samples to confirm that the wood grain and colors are compatible, and that the color choices are complimentary to the warm feel of the existing library.

Reframe Lounge Furniture™

Designed by EOOS for Geiger®

Refined comfort
for working lounge areas

Reframe Lounge Furniture
Part of the Herman Miller Collection

Casual spaces that support collaboration are among the most popular spots to work in most offices. Even as the typical office footprint is shrinking, the popularity of these spaces keeps growing. Reframe Lounge Furniture brings comfort and a distinctive aesthetic to a mix of collaborative and individual work settings.

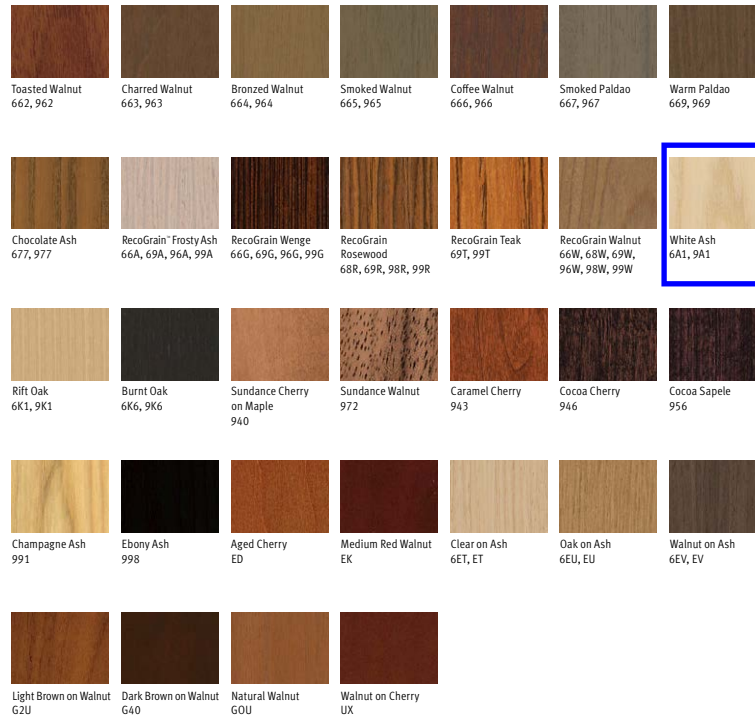

Reframe Lounge Chairs address a range of functional needs with three back heights, all of which are built upon a common wood base. Reframe Tables share the same internal logic as the lounge chair, with round, square, or rectangular tabletops that complement the crisp upholstery lines of the chairs.

Materials

Choose from a curated set of wood finishes and upholstery options to create richly varied expressions of the Reframe Lounge Furniture family. Visit hermanmiller.com/materials to see our complete textile and material offering for Reframe.

Ruckus activity tables enable diverse teaching and learning styles by delivering flexibility and mobility.

Key Features

A Worksurfaces

Available in dynamic shapes and sizes, choose from a variety of high-pressure laminate worksurface finishes, including markerboard.

B Durable Edges

73P and 74P bonded poly edge banding provides moisture and tamper resistance (available in numerous standard colors).

C Frame Options

Available in four table heights: fixed height (29"), floor height-adjustable (12–19"), sit height-adjustable (20–33"), or sit-stand height-adjustable (29–42"). Legs adjust in 1" increments using two set screws for added strength and rigidity. Specify frame from a wide range of colors, including chrome.

D Base Options

Available with glides, casters, or wheelbarrow base (casters and glides). Field-replaceable casters and glides maintain original surface height.
