Drug-Free Workplace Certification

The Contractor named below hereby certifies to be in compliance with 49 CFR parts 40 and 382 by establishing a program designed to help prevent accidents and injuries resulting from the misuse of alcohol or use of controlled substances by drivers of commercial motor vehicles and to provide a workplace free of drug use and alcohol misuse.

The below Contractor will:

1. Have in place a policy in compliance with 49 CFR Parts 40 and 382 that provides for pre-employment, post-accident, random, reasonable suspicion, return-to-duty, and follow -up testing for controlled substances and alcohol.
2. 49 CFR Part 382, section 382.603 requires that persons designated to supervise drivers receive at least 60 minutes of training on alcohol misuse and receive an additional 60 minutes of training on controlled substances use.
3. Have in place a drug free and alcohol free workplace policy that applies to everyone that works on the project described in the contract. The drug free and alcohol free workplace policy shall include an education and training program that informs employees about the following:
 - a. The dangers of drug use and alcohol misuse in the workplace;
 - b. The person's or organization's policy in maintaining a workplace free of drug use and alcohol misuse;
 - c. Any available counseling, rehabilitation and employee assistance programs;
 - d. Penalties that may be imposed upon employees for violations; and,
 - e. Provisions for pre-employment and reasonable suspicion testing.
4. All of the contractor's employees who perform work on this project must be provided with a copy of the above referenced policies as those policies apply to them, i.e. not all employees are commercial drivers, but all employees would be subject to the drug-free and alcohol-free workplace policies.
5. That everyone who works on the contract agrees to abide by the terms of the Contractor's Statement as a condition of continued employment on the contract.
6. That no one who has tested positive within the past year will be allowed to perform work on this project.

By submitting a bid, I hereby swear that I am duly authorized to legally bind the prospective contractor to the above described certification. I am fully aware that this certification, executed on the date and in the county below, is made under penalty of perjury under the laws of the State of New Mexico.

Contractor's Safety Certification

The Contractor named below hereby certifies and shall comply with all applicable Federal, State, County laws, rules, regulations, City ordinances, and best safety practice guidelines for the health and safety of contractor and sub-contractor employees when performing work for the City of Farmington. The City of Farmington Compliance Contractor Safety Verification Program shall require contractors and subcontractors to comply with the law, and use all safety precautions to protect their employees, and the public when engaged in construction projects. The personal safety and health of contractor's and subcontractor's employees is of primary importance. The prevention of occupationally induced injuries and illnesses is of such consequence that it shall be given precedence over operating productivity whenever necessary.

Regulatory Standards: All applicable federal, state and local safety, health and environmental regulatory requirements, including but not limited to: OSHA -29 CFR.

BASIS: It is the responsibility of the general contractor to ensure contractor, and sub-contractors working within the City of Farmington adhere to all applicable safety, health, and environmental standards while conducting business on the construction site or on City Property. When a general contractor arranges to have employees of another employer (sub-contractors) perform work that involves activities that may put personnel at risk, the general contractor will inform the sub-contractor that the workplace contains specific hazards and that the work to be done shall be allowed only if all workers have the proper training, necessary certification(s), proper equipment, and work conditions to complete the work safely.

GENERAL: The contractor will ensure that safe work practices are used by contractor and sub-contractor personnel to provide for the control of risks associated with hazards, by using established procedures for; lock-out-tag-out, confined space entry, welding, trenching, piping, PPE, fall protection, dust control, hearing protection, public safety, and general safety. At the request of the City's Safety Division, the contractor shall provide information regarding the contractor's past safety performance and current safety program.

Responsibility: The contractor shall be responsible for complying with the safety standards applicable to the work they are performing. The contractor agrees that he/she is responsible to enforce compliance with all safety regulations from everyone, including sub-contractors, who work on the contract as a condition of employment on the contract.

Contractor Safety Inspections: Contractor work site safety inspections may be conducted periodically by a City of Farmington Safety Inspector.

By submitting a bid, I hereby swear that I am duly authorized to legally bind the prospective contractor to the above described certification. I am fully aware that this certification, executed on the date and in the county below, is made under penalty of perjury under the laws of the State of New Mexico.
