

BIO-PREFERRED PROGRAM REQUIREMENTS

The Contractor must comply with Section 9002 of the Farm Security and Rural Investment Act of 2002 (FSRIA), Executive Order (EO) 13423, “*Strengthening Federal Environmental, Energy, and Transportation Management*,” and the Federal Acquisition Regulation to provide biobased products.

The Contractor shall utilize products and material made from biobased materials (e.g., insulating foam, composite panels, and concrete and asphalt release fluids) to the maximum extent possible without jeopardizing the intended end use or detracting from the overall quality delivered to the end user. All supplies and materials shall be of a type and quality that conform to applicable Federal specifications and standards. All supplies and materials to be used in the performance of work described herein are subject to the approval of the Contracting Officer Representative (COR).

The following is an example list of products that may be used in this contract for minor construction for which biobased products are available. The list is not all inclusive. It is desirable that vendors be able to supply the greatest number of biobased products meeting the health and environmental specifications.
